KEY DIFFERENTIATORS

• Value Investors with a Long-Term Horizon

We limit our investments to long-term value opportunities applying Third Avenue's investment philosophy for equity and debt investments as the foundation

• Focus on Total Return

Our investment return objective is focused on total return with a primacy on capital appreciation over current income

• Expansive Real Estate Universe

Our investment opportunities include REOCs, REITs, land developers, homebuilders, real estate brokerage, companies with substantial real estate holdings (e.g., retailers, timber companies), and real estate related debt securities when we can earn equity-like returns

• Active Portfolio Management

We actively manage the portfolio by prudently concentrating on our highest conviction ideas, hedging where appropriate, and holding cash when there are fewer buying opportunities

2Q20 HIGHLIGHTS

- The Fund initiated a position in the common stock of American Homes 4 Rent, a US-based REIT that is the second largest owner of single-family homes-for-rent with a sizable build-to-rent platform. The Fund is also set to receive shares in Wharf, Inc. and Wharf REIC (both Hong Kong-based REOCs) after its investment in Wheelock (a Hong Kong-based investment company) agreed to distribute the shares, as well as cash, in a privatization transaction. In addition, the Fund reduced its holdings in Public Storage, Amerco, and Lennar Corp. while increasing St. Modwen Properties.
- The key contributors during the period included the Fund's investments in residential-related businesses where fundamentals have strengthened alongside an acceleration in purchase and remodel activity, including Lennar Corp., Lowe's, Weyerhaeuser, and Berkeley Group. The primary detractors during the quarter were office-centric enterprises including Derwent London and JBG Smith Properties. Both groups control strategic portfolios in markets which are likely to remain desirable for tenants as "work-from-home" initiatives subside over the medium-term.
- The portfolio management team strives to compound capital at low double-digit rates over time while also mitigating against the potential for permanent impairments of capital. As a result, the Fund's investments are focused in a diversified set of property companies that are very well-capitalized (the average net debt to asset ratio is below 20%) and involved with Commercial Real Estate (45.9% of invested capital), Residential Real Estate (38.1% of invested capital), and Real Estate Services (12.5% of invested capital). The Fund also has 3.5% of its capital in Cash & Equivalents, as well as select options and hedging instruments.
