KEY INFORMATION DOCUMENT

Purpose

This document provides key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains, and losses of this product and to help you compare it with other products.

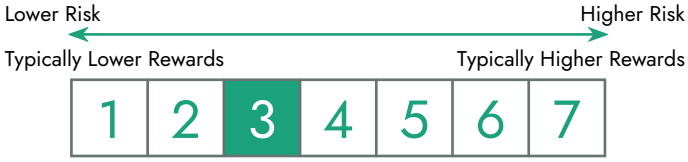
Product

Name of the Product: Class A USD Accumulation Shares Atlantic House Uncorrelated Strategies Fund (the "Fund").
International Securities Identification Number (ISIN): IE00BNTJ5P80
Name of Product manufacturer: Gemini Capital Management (Ireland) Ltd. ("the Manager").
Website: https://www.geminicapital.ie/atlantic-house/
Gemini Capital Management (Ireland) Ltd. is regulated by the Central Bank of Ireland.
This document was issued on 19 September 2025.
Comprehension Alert: You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type: The Fund is a sub-fund of Atlantic House UCITS ICAV (the "ICAV") an open-ended umbrella-type Irish Collective Asset-management Vehicle with segregated liability between sub-funds authorised by the Central Bank as a UCITS pursuant to the ICAV Act and the Regulations on 23 June 2025 with registration number C553577.
As detailed in the "Switching" section of the Prospectus, Shareholders can switch between Funds and different classes within the same Fund. Subject to minimum investment and holding requirements of the relevant Class, Shareholders may convert some or all of their Shares in one Fund to Shares in another Fund or another Class in the same Fund.
Up to 100% of the Fund's portfolio holdings could be implemented through total return swaps that provide exposure to financial indices. In normal market conditions the Investment Manager expects between 90% and 100% of the portfolio will be invested in this way. The remaining 0% to 10% may be invested through other FDIs. The Fund's investments in FDIs will take exposure to a 'basket' of various underlying assets/constituents, being equity, equity-related securities (e.g. convertible securities (such as preference shares) and share purchase rights), financial indices (e.g. S&P; 500, EuroStoxx 50, VIX), debt securities, collective investment schemes (including exchange traded funds), commodities, currencies, futures, forwards and/or options.
The Fund may need to invest a significant amount of its total assets in instruments to function as collateral for the use of FDIs. Such instruments will be primarily investment grade (fixed and floating rate) debt securities issued by governments, government agencies and corporate entities and money market instruments.
No investment will be made in another sub-fund of the ICAV.
The Fund is prohibited from investing more than 10 per cent of the Net Asset Value of the Fund in aggregate in other collective investment schemes. The Fund employs an actively managed approach without reference to a benchmark and is not subject to any industry sector or market capitalisation constraints on target investments.
Income and gains in this share class will be accumulated and reinvested on behalf of shareholders.
Intended retail investor: The Fund is not listed on an exchange and as such is intended for investors who understand the risks of investing in private funds and are willing to assume the potential for capital loss associated with investment in such companies including the loss of the total sum invested. We have classified this product as 3 out of 7, which is a relatively low risk class. The minimum investment per investor is USD 10,000 or the equivalent denominated in the currency of the relevant Class of Shares. The Fund has a long-term investment policy and is not intended for investors who will need access to their investment before the end of the recommended holding period of 4 years.
Maturity date: The Product has no maturity date. Atlantic House is not entitled to terminate the Product unilaterally. The Fund may not grow to or maintain an economically viable size, in which case its directors may determine to wind up the Fund at a time that may not be opportune for investors.
Depositary: J.P. Morgan SE, Dublin Branch.
Prices of shares and further information: Further Information on the fund, including copies of the current Prospectus and the most recent Financial Statements are available, free of charge and can be obtained by emailing info@geminicapital.ie, or a hard copy can be requested in person at the Fund's registered office; Riverside One, Sir John Rogerson's Quay, Dublin 2. Other practical product information, including translations are available on request by emailing info@geminicapital.ie or through the Manager's Website at https://www.geminicapital.ie/contact-us/.
We are required to provide you with further documentation, such as the product's latest information memorandum and annual reports. These documents and other product information are available on request.
More specific information about this share class and other share classes of the Fund are available in the Prospectus and Supplement issued in relation to the Fund, which can be found at https://www.geminicapital.ie/atlantic-house/.

What are the risks and what could I get in return?



The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. This indicator is based on historical data and may not be a reliable indication of the future risk profile of the fund. The risk indicator assumes you keep the product for 4 years (where there is no exact maturity date). The actual risk can vary significantly if you cash in at an early stage.

The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean investment is 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested.

We have classified this product as 3 out of 7, which is a relatively low risk class.

This rates the potential losses from future performance at a relatively low, and poor market conditions could impact the capacity of the Fund to pay you. For a more detailed explanation of the risks, please refer to the "Risk Factors" section of the Prospectus and the "Risk Warnings" section of the Supplement.

Be aware of currency risk. You will receive payments in a different currency, so the final return you get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Performance scenarios

Investment USD 10,000			
Scenarios		1 Year	4 years (Recommended Holding Period)
Stress	What you might get back after costs	5,972	5,908
	Average Return Each Year	-40.28%	-12.33%
Unfavourable	What you might get back after costs	8,967	8,589
	Average Return Each Year	-10.33%	-3.73%
Moderate	What you might get back after costs	10,076	12,910
	Average Return Each Year	0.76%	6.59%
Favourable	What you might get back after costs	11,860	13,889
	Average Return Each Year	18.60%	8.56%

This table shows the money you could get back over the next 4 years (recommended holding period), under different scenarios, assuming that you invest USD 10,000. The scenarios shown illustrate how your investment could perform.
The scenarios presented are an estimate of future performance based on proxies of similar products, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, but may not include all the costs you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
This Share Class launched on 15 July 2022, consequently, past performance is not available for a full calendar year, which means that there is insufficient data to provide a useful indicator of past performance to investors.
Please note that the Fund merged into a newly approved Fund on 19 September 2025. The new Fund was approved by the Central Bank on 23 June 2025.

What happens if the Manager is unable to pay out?

As a shareholder in the Fund, you would face a financial loss in the event of a default of the Fund. The sub-fund is not a guaranteed UCITS and as a result there is no guarantee scheme in place which provides a guaranteed rate of return.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest USD 10,000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment Scenarios USD 10,000	If you cash in after 1 year	If you exit after 4 years
Total costs	USD 117	USD 577
Reduction in Yield (RIY) per year*	1.17% (each year)	1.17% (each year)

Composition of Costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period

This table shows the impact on return per year			
One-Off Costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment.
	Exit costs	0.00%	The maximum impact of the costs of exiting your investment when it matures.
Ongoing Costs	Transaction costs	0.03%	The impact of the costs of us buying and selling underlying investments for the product.
	Management fees and other administrative and operating costs	0.95%	The impact of the costs that we take each year for managing your investments.
Incidental Costs	Performance fees	0.19%	The impact of the performance fee. We take these from your investment if the product outperforms its high water mark, of (a) the highest previous net asset value per share of the series concerned at the end of a performance period; and (b) the initial issue price of the shares of that series.

How long should I hold it and can I take my money out early?

Recommended holding period: 4 years

The Fund investment strategy is intended for long-term investment and returns can be volatile. Investors may request the redemption of all or some of their shares on any Dealing Day, subject to written notice being received by the Administrator (J.P. Morgan Administration Services (Ireland) Limited) prior to the Dealing Deadline of the relevant Dealing Day or any such notice period as the Fund directors may in their discretion determine generally or in respect of specific requests.

How can I complain?

If you have any complaints about the product or the conduct of Gemini Capital Management (Ireland) Ltd. or the person advising on or selling the product, you may contact: info@geminicapital.ie or by post at 7th Floor, Block A, One Park Place, Upper Hatch Street, Dublin 2, Ireland. Further details are available at our website: https://www.geminicapital.ie/our-policies/.
