Class I Accumulation (GBP) Shares (ISIN IE000APSHCS1)
Vert Global Sustainable Real Estate Fund (the 'Fund'),
a sub-fund of GemCap Investment Funds (Ireland) PLC (the 'Company')

The Fund is managed by Ascender Fund Partners (Ireland) Limited which acts as manager to the Company

Objectives and Investment Policy

The Fund seeks long-term total return through capital appreciation and current income. The Fund invests primarily in a broad portfolio of sustainable real estate issuers. The Fund seeks to invest at least 80% of its net assets in securities of issuers that meet the environmental or social characteristics promoted by the Fund, as set out in the Supplement. The Fund aims to allocate at least 50% of its investments to sustainable investments as defined under the SFDR.

It is proposed that the Fund will invest in the equity securities of issuers in the real estate sector operating as owners and lessors of properties. It is proposed that the Fund will initially invest only in issuers that are real estate investment trusts (REITs).

It is proposed that in limited cases, the Fund can invest in entities that are very similar to REITs in their operations, but which have not been granted tax-exempt status by their local tax authority ("REIT-Like Entities"). REIT-Like Entities include issuers that own properties, real estate developers and operating companies with substantial real estate holdings. All investments of the Fund will comply with UCITS eligibility rules, which are summarised in Appendix 1 of the Prospectus.

The Fund may invest up to 10% of its net assets in emerging markets, and up to 10% of its net assets in shares of exchange-traded funds ("ETFs"), (though the Fund may not invest in US ETFs) and other collective investment schemes (including money market funds) to provide exposure to equities which the Investment Manager considers will give returns to investors consistent with the investment objective of the Fund.

The Fund uses the S&P Global REIT Index as comparator benchmarks to compare performance. The Fund is actively managed and is not constrained by any benchmark.

The Fund may use financial derivative instruments for efficient portfolio management, as detailed in the 'Investment Objective and Policy' section of the Supplement and in the Prospectus section entitled 'Efficient Portfolio Management'.

For Accumulating classes, any income or gains of the Fund net of expenses will be accumulated and reinvested into the net assets of the Fund.

For Distributing classes, any income less expenses earned will be distributed in accordance with the distribution policy in the Prospectus.

Investors can redeem shares in the Fund on every business day meaning a day on which banks in Ireland and on which the New York Stock Exchange, are open for normal business subject to the 'Dealing Days for Subscription and Redemptions' the 'Issue of Shares' and 'Redemption of Shares' section of the Supplement. For full details please refer to the 'Investment Objective and Policy', 'Issue of Shares' and 'Redemption of Shares' sections of the Supplement and 'The Shares' section of the Prospectus.

The risk and reward category shown is not guaranteed to remain unchanged and may change over time.

The lowest category does not mean investment is 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested.

The Fund is categorised as category 6 as it as it mostly invests in equities securities in the real estate sector and debt securities, the combination of which may lead to higher levels of price fluctuation.

The following are risks materially relevant to the Fund which are not adequately captured by the indicator:

> There may be insufficient buyers or sellers to allow the Fund to sell or buy certain types of securities readily;

> REITS expose the Fund to changes in the values of the underlying properties owned by the trusts, and mortgage REITs may be affected by the quality of any credit extended.

> Investments in emerging markets may expose the Fund to more social, political, regulatory and currency risks than securities in developed markets;

> Derivatives may fluctuate in value rapidly and certain derivatives may introduce leverage which may result in losses that are greater than the original amount invested;

> A party with whom the Fund contracts for securities may fail to meet its obligations or become bankrupt which may expose the Fund to a financial loss; and

> For non-US Dollar classes, while the Fund may attempt to hedge against currency fluctuations, there can be no guarantee that the value of such classes will not be affected by the fluctuations in the US Dollar against the relevant currency.

For a more detailed explanation of the risks, please refer to the "Risk Factors" section of the Prospectus and the Supplement.
