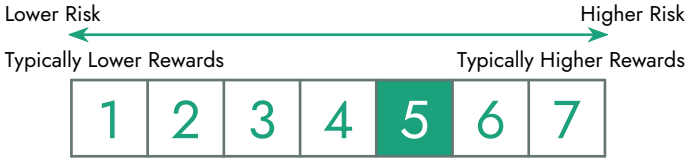
Ascender Fund Partners (Ireland) Limited is regulated by the Central Bank of Ireland.
This document was issued on 17 April 2026.
Comprehension Alert: You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type: The Fund is a sub-fund of GemCap Investment Funds (Ireland) plc, which is an umbrella type open-ended investment company with variable capital and segregated liability between sub-funds and is incorporated with limited liability under the laws of Ireland with registered number 485081, which was authorised by the Central Bank on 11 November 2010 as a UCITS.
As detailed in the "Switching" section of the Prospectus, Shareholders can switch between Funds and different classes within the same Fund. Subject to minimum investment and holding requirements of the relevant Class, Shareholders may convert some or all of their Shares in one Fund to Shares in another Fund or another Class in the same Fund.
Term: The Product has no maturity date. The Investment Manager is not entitled to terminate the Product unilaterally. The Fund may not grow to or maintain an economically viable size, in which case its directors may determine to wind up the Fund at a time that may not be opportune for investors.
Objectives: The Fund intends to achieve its investment objective by investing its assets primarily in a broad portfolio of sustainable real estate issuers. The Fund may also invest in FDIs for efficient portfolio management. The FDI which the Fund may use may be exchange-traded on a regulated market or over the counter. These FDIs may include futures, options, warrants and rights, repurchase agreements and reverse repurchase agreements. The Fund may enter into securities financing transactions, namely repurchase agreements, reverse repurchase agreements and/or securities lending, for the purposes of investment and/or efficient portfolio management in accordance the Prospectus.
The Fund will be considered to be actively managed in reference to the S&P Global REIT Index (the "**Benchmark**") by virtue of the fact that it will use the Benchmark for performance comparison purposes. However, the Benchmark will not be used to define the portfolio composition of the Fund or as a performance target and the Fund may be invested in securities which are not constituents of the Benchmark. The Fund may pay dividends on Distributing Shares semi-annually or at other times, possibly from capital, with payments made within two months.
Intended retail investor: The Fund may be appropriate for investors seeking long-term capital appreciation and who are willing to assume the potential for capital loss associated with investment in such companies including the loss of the total sum invested. The minimum investment per investor is EUR €100,000. We have classified this product as 5 out of 7, which is an above average risk class. The Fund has a long-term investment policy and is not intended for investors who will need access to their investment before the end of the recommended holding period of 4 years.
Depositary: CACEIS Bank, Ireland Branch.
Prices of shares and further information: Further Information on the fund, including copies of the current Prospectus and the most recent Financial Statements are available, free of charge and can be obtained by emailing info@ascenderfp.com, or a hard copy can be requested in person at the Fund's registered office; 7th Floor, Block A, One Park Place, Upper Hatch Street, Dublin 2. Other practical product information, including translations are available on request by emailing CompanceIre@ascenderfp.com or through the Manager's Website at https://www.geminicapital.ie/ascender-fund-literature/.
We are required to provide you with further documentation, such as the product's latest information memorandum and annual reports. These documents and other product information are available on request.
More specific information about this share class and other share classes of the Fund are available in the Prospectus and Supplement issued in relation to the Fund, which can be found at https://www.geminicapital.ie/ascender-fund-literature/

What are the risks and what could I get in return?



The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may change over time. Although the product has no fixed maturity date, the risk indicator assumes you keep the product for 4 years. The actual risk can vary significantly if you cash in at an early stage. The lowest category does not mean investment is 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested.

We have classified this product as 5 out of 7, which is an above average risk class.

This rates the potential losses from future performance at a above average, and poor market conditions could impact the capacity of the Fund to pay you. For a more detailed explanation of the risks, please refer to the "Risk Factors" section of the Prospectus and the "Risk Warnings" section of the Supplement.

Be aware of currency risk. You will receive payments in a different currency, so the final return you get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Performance scenarios

Investment EUR 10,000			
Scenarios		1 Year	4 years (Recommended Holding Period)
Stress	What you might get back after costs	8,127	6,161
	Average Return Each Year	-18.73%	-11.41%
Unfavourable	What you might get back after costs	6,669	6,161
	Average Return Each Year	-33.31%	-11.41%
Moderate	What you might get back after costs	10,309	11,171
	Average Return Each Year	3.09%	2.81%
Favourable	What you might get back after costs	14,836	13,853
	Average Return Each Year	48.36%	8.49%

This table shows the money you could get back over the next 4 years (recommended holding period), under different scenarios, assuming that you invest EUR €10,000. The scenarios shown illustrate how your investment could perform. Past performance is not available for a full calendar year, which means that there is insufficient data to provide a useful indicator of past performance to investors.
The scenarios presented are an estimate of future performance based on proxies of similar products, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, but may not include all the costs you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if the Manager is unable to pay out?

As a shareholder in the Fund, you would face a financial loss in the event of a default of the Fund. The sub-fund is not a guaranteed UCITS and as a result there is no guarantee scheme in place which provides a guaranteed rate of return.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest EUR €10,000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment Scenarios EUR 10,000	If you cash in after 1 year	If you exit after 4 years
Total costs	EUR 53	EUR 232
Reduction in Yield (RIY) per year*	0.53% (each year)	0.53% (each year)

Composition of Costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.

This table shows the impact on return per year			
One-Off Costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment.
	Exit costs	0.00%	The maximum impact of the costs of exiting your investment when it matures.
Ongoing Costs	Transaction costs	0.03%	The impact of the costs of us buying and selling underlying investments for the product.
	Management fees and other administrative and operating costs	0.50%	The impact of the costs that we take each year for managing your investments.
Incidental Costs	Performance fees	0.00%	The impact of the performance fee. We take these from your investment if the product outperforms its high water mark, of (a) the highest previous net asset value per share of the series concerned at the end of a performance period; and (b) the initial issue price of the shares of that series.

*This illustrates how costs reduce your return each year over the holding period.

How long should I hold it and can I take my money out early?

Recommended holding period: 4 years

The Fund investment strategy is intended for long-term investment and returns can be volatile. Investors may request the redemption of all or some of their shares on any Dealing Day, subject to written notice being received by the Administrator (CACEIS Ireland Limited) prior to the Dealing Deadline of the relevant Dealing Day or any such notice period as the Fund directors may in their discretion determine generally or in respect of specific requests.
